Notes and Sources

The ranking is based on a combination of its secrecy score and scale weighting (click [here](#) to see our full methodology).

The secrecy score of Dominican Republic could not be computed due to incomplete data in some of the 15 Key Financial Secrecy Indicators (KFSI), listed on the right. Each KFSI is explained in more detail, [here](#).

Green indicates full compliance on the relevant indicator, meaning least secrecy; red indicates non-compliance (most secrecy); and yellow indicates partial compliance.

This paper draws on data sources including regulatory reports, legislation, regulation and news available as of 31.12.2014 (with the exception of KFSI 13 for which the cut-off date is 31.05.2015).

Full data on Dominican Republic is available here: <http://www.financialsecrecyindex.com/database/menu.xml>

All background data for all countries can be found on the Financial Secrecy Index website: <http://www.financialsecrecyindex.com>
